RE: Lodging for our Adaptive Snow Sports Instructors

Please consider extending similar discounted rates to the volunteer adaptive snow sports instructors in our program that you would extend to instructors at Liberty Mountain Resort.

Most of our instructors are certified and have been full or part-time instructors at Liberty Mountain Resort in the past. As you may know, the resort has been purchased and it is more difficult for our instructors to volunteer for our program and maintain a schedule at Liberty Mountain Resort to obtain an employee card for your verification. Our instructors have made a tremendous commitment to volunteer to help people with disabilities enjoy snow sports.

Blue Ridge Adaptive Snow Sports, Inc. (BRASS) is a nonprofit (501(c)(3)) organization and a chapter of [Move United](#). Our mission is to enhance the lives of people with disabilities through adaptive snow sports and recreational activities. We achieve this by offering ski and snowboard instruction for people with disabilities at [Liberty Mountain Resort](#) in south central Pennsylvania in the form of [visually impaired/CI](#), [stand-up skiing](#), or [sit-down skiing](#) with the use of special equipment. Adaptive snow sports allow people with disabilities to enjoy the outdoors and freedom of movement.

Thank you for your consideration.

If you need verification of the volunteer instructors involvement in our program, please feel free to reach out to us:
